

ABOUT THE STATE

HAPPENINGS OF INTEREST FROM DIFFERENT SECTIONS

The preliminary sale of Chautauque tickets in Rutland is far from encouraging.

Lon Wheeler of Hyde Park, while cutting up feed for his horses July 4, cut off most of one thumb.

Three thousand five hundred men patronized the shower baths at the Y. M. C. A. rooms in Burlington during June.

Because of the war situation, Rutland has given up any idea of holding its annual carnival in September this year. A patriotic pageant may take its place.

Three sons of Mr. and Mrs. James E. Creed of Rutland are serving their country in the present war, two in the regular army and the third with the V. N. G.

An unusually fine specimen of white fox from Alaska has been received for the Hitchcock Memorial museum in Westfield, after three years' search for a perfect specimen.

The rectory buildings belonging to St. Luke's parish in Chester were partially burned Thursday, the fire starting in the barn and destroying a nearly new five-passenger automobile.

John Dorsey met with an automobile accident while on his way to his home in Ludlow Thursday night in which his car was demolished. It turned several somersaults. Mr. Dorsey was bruised and shaken up.

Several Masons in the state are claiming to be the oldest members of the order in Vermont. J. W. Morrill of St. Albans Bay is sure he has all the rest beaten, for he will be 83 years old the 29th of next September and joined the Masonic lodge 61 years ago last September.

Rev. J. R. Lawrence, pastor of the Baptist church in Townshend, has a Sunshine library of 5,000 volumes which he has for years placed at the disposal of the people of his parishes. About 3,000 of the books are fiction. Sixty-five have been added since February. The library is kept at the parsonage.

When a box of No. 32 cartridges became spilled into the woodbox accidentally and then they were put into the stove with the contents of the woodbox, Mr. and Mrs. John C. Hathorn of Barnard got quite a surprise, for the explosion was of considerable force. No one was hurt and the stove was not damaged.

Mrs. Minerva Taylor found a queer specimen of the butterfly family in Springfield a few days ago, which had a white body, two sets of pea-green wings, the upper set with a small band an inch long and a quarter of an inch in width. The broad part of the wing was covered with brown spots. So far no one has been able to classify it.

The 4-year-old son of Edmund Duff of West Holland, while left in the wagon alone for a few minutes, applied the whip to the span of horses, which caused them to run away. For a mile the animals ran and then turned into the creamery yard, their original destination, without overturning the outfit or throwing the boy out, as he hung to the seat. No damage was done.

Edward M. Connor, 17-year-old son of Mr. and Mrs. Thomas M. O'Connor of Brattleboro, is in a Greenfield, Mass., hospital with serious injuries received when he and another boy tried to board a moving freight train at Farley, Mass. The train ran over one ankle and he also has a fractured skull and other serious injuries. He enlisted last April in Co. I without the consent of his parents and was later discharged because he was under the age limit required.

Adjutant-General Lee S. Tillotson of the state's military department announced the appointment of Thomas W. Ray of Brandon to be second lieutenant of Company C, First Vermont Volunteer Militia (Home Guards) in place of Elroy R. Woods who refused to accept commission. Other appointments in the First Vermont Volunteer Militia were as follows: Arthur H. West, second lieutenant Company H; Newport; Henry G. Holmes, first lieutenant Company L; Springfield; J. Milton Slack, second lieutenant Company L, Springfield.

A recent order directs Col. Ira L. Reeves, president of Norwich university and former commander of the Vermont National Guard, to report for examination in anticipation of transfer to the active army list again. The order is as follows: "Capt. Ira L. Reeves, United States army, retired, will report in person to Col. George W. Melver, infantry, detached officers' list, president of the examining board at Washington, D. C., appointed in paragraph 33, special orders, No. 28, war department, February 3, 1917, at such time as he may be required by the board, for examination to determine his fitness for transfer to the active list."

Office of the Bureau Moved from Barre to Montpelier This Week.

At the June 7 meeting of the members of the farm bureau association it was voted to move the headquarters of the association to the city of Montpelier. This was done on account of economic reasons. It was argued that Montpelier would be more centrally located geographically and that the office would be within reach of a larger percentage of the farmers, both by travel and telephone. It should also make some saving in the time of the county agent.

Accordingly, the office headquarters has been established at room No. 9 in the Langdon block in Montpelier. The room is directly over the meat market of Colburn & Fallon and is approached either by the front entrance on Main street or by the stairs in the rear, and all interested are cordially invited to drop in.

For the present there will be two regular office days, when the county agent will be expected to be in the office. These will be on Wednesday forenoon and all day on Saturday. This does not mean that this will be the only time that the county agent will be found in, but you may expect to see him there or get him on the telephone at those times. It is likely that you will find him in nearly every morning between 7:30 and 9.

The telephone number is 714-W, and if you are not answered at this number, call Barre 627-R. Correspondence should be addressed to Montpelier, box 361. I hope that the office will be generally used by those interested in agriculture and questions regarding farm problems. You will find here text books and bulletins relating to nearly every phase of farming, which you are welcome to use. F. H. Abbott, County Agent.

Pay of Surgeon in Ancient Times.
High honorariums were paid surgeons in ancient times. When Darius, the son of Hyaspas, sprained his foot Damaeodes was called in, another surgeon of renown having failed to effect a cure. Damaeodes was successful, and the king introduced the doctor to the ladies of the court. The ladies filled a vase of gold with money and precious pearls, which a slave was ordered to carry to the doctor.

High Prices.
In San Francisco in 1849 clerks in stores and offices had magnificent salaries. Five dollars a day was the smallest stipend even in the custom house, and one preacher was paid \$10,000 a year. Laborers received \$1 an hour. A pick or a shovel was worth \$10 and a butcher's knife \$30. At one time the carpenters, who were getting \$12 a day, struck for \$18. But it should be noted that prices were exceedingly high also.

When Youth's Life is Shaped.
"The hand that rocks the cradle rules the world." Nonsense. It only rules the material. The time of the shaping of life is from twelve to eighteen years old. That is the formative period. All great educators know that. Professor Earl Barnes.

Its Kind.
"I hear Barnes is getting on so well that he gave his wife a machine."
"He's getting on so well because he gave her the machine. It is a washing machine."—Baltimore American.

Great men are they who see that spiritual is stronger than any material force; that thoughts rule the world.—Emerson.
